

Hydraulic NC Panbrakes

PB-440 ~ PB-830A

- Hydraulic bending and material clamping system
- NC-89 digital angle programmable control for angles from 0-125°
- NC-89 controlled opening height adjustment
- NC-89 controlled dwell timer ensures consistent bending angle
- Quick action rapid head adjustment to optimise the bending radius on material thickness selected
- High quality components ensure reliable performance for years of continuous operation
- Auto cycle: after clamping bottom beam bends to pre-set angle & return, head un-clamps to set position
- Extended fingers allows bending of pans or boxes to a depth of 230mm
- Includes an adjustable rear manual backgauge, also adjustable for tapered material
- Mild steel capacity is rated on hot rolled material with 250MPA

NC-89

Ezy-Set NC-89 Go-To Programmable digital display control

This programmable digital control assures accurate bending repeatability.
