

SuperJaws Portable Clamping System

Robust, powder-coated, all-steel construction for long-lasting service life.

Powerful 1000kg clamping force for controlled clamping pressure. Clamping range 0-955mm / 0-37 1/2".

Foot-operated clamping allows hands-free operation. Extra-wide tripod base maximises stability for large workpieces.

SJA 100E

The iconic SuperJaws can be easily transported right to the job, whether indoors, outdoors or to the workshop floor.

SuperJaws provides fast, handsfree clamping of material up to 955mm, and a massive clamping force of up to 1000kg.

Constructed from tough, powdercoated steel, SuperJaws will hold anything from car parts and bicycles to timber and tubing.

Features include a lock / release switch for fast release of the workpiece, and reversible jaws for extra wide clamping capacity.

Item	Part No.	Description
805281	TRI-SJA100E	SuperJaws Max Clamp

Technical Specification

Product Height	980mm
Product Length	880mm
Product Width	860mm
Product Weight	14.5kg
Capacity Maximum Load	200kg
Clamping Force	1000kg
Clamping Method	Foot Operated
Clamping Range	0 - 955mm
Finish	Powdercoated
Folded Size - Height	295mm
Folded Size - Length	810mm
Folded Size - Width	330mm
Material - Primary Construction	Steel

Main Features

- Stand-alone design allows 360° access to the work
- Robust, all-steel construction with powder-coated finish
- Foot-operated 1000kg clamping force
- Reversible sliding jaws enables clamping up to 955mm
- Extra-wide tripod base for stability
- Folded Size: 810 x 295 x 330mm
- Max load capacity increased from 100kg to 200kg
- Urethane jaw facings provide protective, slip-resistant grip
